

# RSC Case Packer - Monobloc

## FEATURES:

- Compact case packing solution
- Case packer with integrated case erector with bottom flap sealing
- Case erecting section with mechanically driven positive unfolding system and case squaring device.
- Excellent accessibility and visibility of moving parts for better cleaning and maintenance
- Quick and tool free change-over

## Monoblock Case Packers

A multifaceted machine that performs several operations simultaneously, this system can erect, pack and seal RSC cases without consuming large square meters. Our monoblock solution will be customized to meet your needs with either our MCP or RCP case packaging models.
